

## Castrol Classic TQF

Automatic Transmission Fluid for Classic Vehicles

### Description

Classic TQF is an automatic transmission fluid specially formulated from high quality mineral oils and incorporates various additives to provide wear, oxidation and corrosion resistance. The product is dyed red to distinguish it from crankcase oils should leakage occur.

### Application

Classic TQF was specifically formulated to meet the requirements of the now obsolete Ford automatic transmission fluid (ATF) specification ESW-M2C-33G / -33F as required for many older transmission used in classic vehicles. It may also be used as a general hydraulic fluid or power steering fluid where the Manufacturer specifies the use of an ATF. It should not be used where MERCON® or DEXRON® type fluid required.
